Section 1: PAGINATION-HEADING-01

PAGINATION-01-01-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-01-02-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-01-03-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-01-04-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-01-05-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

Section 2: PAGINATION-HEADING-02

PAGINATION-02-01-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-02-02-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-02-03-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers

exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-02-04-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-02-05-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

Section 3: PAGINATION-HEADING-03

PAGINATION-03-01-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-03-02-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-03-03-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-03-04-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-03-05-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

Section 4: PAGINATION-HEADING-04

PAGINATION-04-01-2026. This deterministic paragraph is long enough to wrap across

several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-04-02-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-04-03-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-04-04-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-04-05-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

Section 5: PAGINATION-HEADING-05

PAGINATION-05-01-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-05-02-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-05-03-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-05-04-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should

remain consistent from the first page through the final page.

PAGINATION-05-05-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

Section 6: PAGINATION-HEADING-06

PAGINATION-06-01-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-06-02-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-06-03-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-06-04-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-06-05-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

Section 7: PAGINATION-HEADING-07

PAGINATION-07-01-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-07-02-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers

exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-07-03-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-07-04-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-07-05-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

Section 8: PAGINATION-HEADING-08

PAGINATION-08-01-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-08-02-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-08-03-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-08-04-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.

PAGINATION-08-05-2026. This deterministic paragraph is long enough to wrap across several lines and exercise page breaking. A correct conversion preserves all markers exactly once and avoids orphaned headings, overlaps, and clipped lines. Spacing should remain consistent from the first page through the final page.
